

Detection Cable

Cross Section Drawing:

Characteristic and Application:

- Detect the point of continuity; comprehensively detect the various points of the object.
- Anti-high pressure and strong electromagnetic fields, radiation-resistant; can be used in a variety of hazardous working environments.
- Simple to install, and can be used in various occasions for a long time.
- Has a good performance of lateral compression resistance.
- Used for stress sensing of dams, bridges and high buildings to prevent building collapse.
- Used for the temperature and pressure measurement of oil wells and coal mines.
- Used for the temperature monitoring and detection of power plants and substations.
- Used for monitoring cables and transmission lines.
