

### ::: OFC-DB Optical Dome Closure with Branching :::

OFC Optical Closure are designed for easy assembly and re-entry in the external plant installation. The water-proof and rugged construction makes these closures perfect for the extreme plant environment. OFC-DB closure are equipped with patch panel and allows branching and interconnection to be done in the closure, eliminating the used of distribution unit.

### ::: Features :::

- "O" ring. 2 part clamp and bolt sealing design, no re-entry tape or sleeve required during re-access. Save cost
- No loose part - easy of installation
- Cable entry ports are sealed to cable by the use of heatshrink sleeve
- Mountable in manhole, on wall and pole
- No special training and tooling requierd
- Option for FC, SC, or LC adapter panel

### ::: Specification :::

- Dimensions : S - 495mm (L) x 220mm (O.D)
- Materail : High Strength Engineering Plastic PC
- Colour : Black

### ::: Ordering Information :::

Part Number	Description
LTOC-OFC-DB48-12	Optical Dome Closure OFC-DB 48 core with 12 fibers patch panel
LTOC-OFC-DB48-24	Optical Dome Closure OFC-DB 48 core with 24 fibers patch panel
LTOC-OFC-DB48-36	Optical Dome Closure OFC-DB 48 core with 36 fibers patch panel
LTOC-OFC-DS48-48	Optical Dome Closure OFC-DB 48 core with 48 fibers patch panel
