

::: MFM Fiber Distribution Panel :::

MFM Fiber Distribution Panels are designed for terminating optical fiber in exchanges or communications room where higher density is required. MFM features a modular system for fiber splicing and patching with flexible cable management systems. MFM consists of a splice module and a patch module to provide a cost effective and easy installation solutions for fiber optic management system.

::: Features :::

- All front access allow easy access to patch and fiber trays
- Interchangeable adapter plates accommodate various types of connectors
- Swing out adapter panel design of patch module allows easy access to the pigtail cable at the back
- Slide out splice module design allows access to fiber splice tray and reduce installation time
- Flippable splice organizer trays provide easy access to splices for maintenance
- Strength member clamp provides strain relief to avoid cable pull-out

::: Specification :::

Material : Aluminium/mild steel with epoxy coating
 Finish : High quality oven baked epoxy powdered
 Colour : Beige
 Dimension : 203mm(H) x 485mm(W) x 258mm(D)

::: Ordering Information :::

Part Number	Description	Dimensions (HxWxD)
LTOC-MFM-72P	MFM Patch Module 72 Core	203mm x 485mm x 258mm
LTOC-MFM-144S	MFM Splice Module 144 Core	203mm x 482mm x 258mm
